

Knowbella Tech Forms Alliance with Kudelski Security

Knowbella Tech's Blockchain to be Further Developed.

Cincinnati, OH — May 4th, 2020 — [Knowbella Tech](#), an open science collaboration platform company announces its technology development alliance with [Kudelski Security](#), the cybersecurity division of the multi-billion USD company, the [Kudelski Group](#) (SIX: KUD.S) and Open Therapeutics, LLC.

Due to Kudelski Security's partner ecosystem, which reflects their product security and privacy applications behind their expertise with cryptography, blockchain development and Internet-of-Things (IoT) systems, Knowbella Tech committed to co-develop its [Knowbella Platform](#) blockchain features with Kudelski.

Knowbella Tech will work closely with [Kudelski Security's Blockchain Security Center](#) to continue the build of its blockchain-based applications.

Kudelski Security's blockchain expertise is built on more than 30 years' of experience in cryptographic design, as well as more recent work in public blockchain cryptocurrency coin design and implementation, point of sale technology development, detailed audits of application code, protocol creation, and cryptographic algorithms for major industry players in the cryptocurrency, digital communications and IoT markets.

Kudelski Security will assist Knowbella Tech with the design, build, and implementation of the blockchain-related capabilities and technologies for the Therapoid platform, namely cryptocurrency, grant management, lab equipment management, gig and career board postings, and intellectual property management.

The blockchain applications will be developed on the Kudelski Trust Platform, a secure Amazon Web Services (AWS) Software as a Service (SaaS) solution that provides a highly secure DevSecOps Pipeline and associated AWS and Kudelski Security-develop services to enable rapid, agile development.

An initial focus of the results shall be enabling researchers to solve the COVID19 problem.

###

About Kudelski Security

Kudelski Security is the premier advisor and cybersecurity innovator for today's most security-conscious organizations. Our long-term approach to client partnerships enables us to continuously evaluate their security posture to recommend solutions that reduce business risk, maintain compliance and increase overall security effectiveness. With clients that include Fortune 500 enterprises and government organizations in Europe and across the United States, we address the most complex environments through an unparalleled set of solution capabilities including consulting, technology, managed security services and custom innovation. For more information, visit www.kudelskisecurity.com.

About Knowbella Tech

Founded through a partnership with Open Therapeutics, LLC, Knowbella Tech's mission is to provide the global scientific community free tools and services, career opportunities, orphan and dormant intellectual properties, and AnthroTokens™ cryptocurrency in order to advance science and generate a public good. The freely available "open science" and "open access" Knowbella Platform will particularly serve the underserved researchers. Scientists will be rewarded for their conduct of science within the Platform with AnthroTokens™, "The Currency of Knowledge™." Knowbella is scheduled to launch a U.S. Securities and Exchange Commission (SEC) compliant Security Token Offering (STO), also known as a Digital Security Offering (DSO), in mid-2019, which will give investors an opportunity to purchase Helix™ "The Currency of Science" security tokens.
